- (a) the fraction shall be made up to one pound if it would exceed 50p, and

Rateable values

5. In the case of each class of hereditaments, paragraphs 2 to 2B⁽⁸⁾ of Schedule 6 to the 1988 Act shall not apply in any year beginning on or after 1st April 1995 and its rateable value—

-
- (3) S.I. 1989/2479, amended by sections 2(3) and 3(2) and (3) of the Non-Domestic Rating Act 1992 (c. 46), section 1(5) of the Non-Domestic Rating Act 1993 (c. 17) and section 1(4) of the Non-Domestic Rating Act 1994 (c. 3) and S.I. 1991/2924 and S.I. 1993/772.

 - (6) 1978 c. 30.
 - (7) Section 58 is amended by paragraph 68 of Schedule 13 to the Local Government Finance Act 1992 (c. 14) and by section 2 of the Non-Domestic Rating Act 1994.

- (a) in the year beginning on 1st April 1995, shall be the amount specified in relation to it in the Schedule; and
- (b) subject to article 10, in any year beginning on or after 1st April 1996, shall be the amount produced in respect of that year by applying the standard formula in relation to that class.

Recalculation factor interpretation

6.—(1) In article 7 in relation to each class of hereditaments—

(a) in any formula—

y is the relevant amount of water in relation to the period of three years ending immediately before the relevant preceding year;

Y, subject to article 7(3), is the relevant amount of water in relation to the period of three years ending on 31st March 1994; and

Z is a number having the same value as y in the last foregoing year in relation to which the applicable recalculation factor for that class was determined in accordance with article 7(2); and

(b) 6. (1) (b) “relevant amount of water” in relation to a relevant designated person and any period of three years means the amount calculated in accordance with paragraph (2).

(2) The relevant amount of water in relation to a relevant designated person and any year is the annual average, over the three years being considered, expressed in megalitres to the nearest tenth part of a megalitre, of the amount estimated in accordance with sub-paragraph (a) less the amount estimated in accordance with sub-paragraph (b); that is to say—

(a) the estimated annual average amount of water put into supply by that person in the period of three years, being water supplied both—

(i) to any other person in bulk, that is to say for the purpose of augmenting or constituting the supply to be given by that person; and

(ii) otherwise,

less half the estimated annual average amount of non-potable water so supplied otherwise than in bulk; less

(b) half the annual average amount estimated to have been taken or supplied in bulk during that period of three years.

(3) Where the relevant designated person did not supply water throughout any year in a period of three years, paragraph (2) shall apply as if for the reference to the annual average over three years there were substituted a reference to the annual average over the number of years throughout which water was supplied; and for the purposes of this paragraph any temporary suspension of supply shall be disregarded.

Recalculation factors

7.—(1) Where in relation to a class of hereditaments and any year the value attributable to y is less than that produced in calculating in accordance with the formula—

$$Y \left(\frac{102}{100} \right)$$

(“the upper threshold”) and greater than that produced by calculating in accordance with the formula—

$$Y \left(\frac{98}{100} \right)$$

(“the lower threshold”), the recalculation factor applicable to that class—

- (a) in the first such year shall be 0, and
- (b) in any subsequent such year, shall be a figure equal to the recalculation factor applicable in accordance with this article in the relevant preceding year.

(2) Where in relation to any year the value attributable to y in respect of a class of hereditaments is equal to or exceeds the upper threshold or is equal to or lower than the lower threshold, the recalculation factor applicable to that class in that year shall be the figure produced by calculating in accordance with the formula—

$$T \left(\frac{y-Y}{1.5Y} \right)$$

(3) In relation to any class of hereditaments and any year beginning after the year in which paragraph (2) first applies to that class, paragraph (1) shall apply as if for Y there were substituted Z .

Special cases interpretation

8. In articles 9 and 10—

“English hereditaments” means such of the scheme hereditaments and any other hereditaments as are occupied by a scheme transferee and shown in the central rating list for England;

“Schedule 2 scheme” means a scheme under Schedule 2 to the Water Industry Act 1991(9);

“scheme hereditaments” means hereditaments transferred by a Schedule 2 scheme;

“scheme transferee” means a designated person which, in consequence of a Schedule 2 scheme, occupies a class of hereditaments which immediately before the day on which the scheme comes into force are occupied by another designated person; and

“Welsh hereditaments” means such of the scheme hereditaments and any other hereditaments as are occupied by a scheme transferee and shown in the central rating list for Wales.

Application

9. Article 10 applies for the purpose of determining, as regards any day on which, pursuant to the Central Lists Regulations, English hereditaments or Welsh hereditaments occupied by a scheme transferee are shown in a central rating list, the rateable value (as a whole) of the English hereditaments, or, as the case may be, the Welsh hereditaments.

Determination of rateable values

10.—(1) The rateable value (as a whole) of the English hereditaments, or, as the case may be, the Welsh hereditaments shall be an amount equal to the aggregate of the amounts which, but for the Schedule 2 scheme, and subject to paragraph (2) below, would have been determined in accordance with article 5 as the rateable value of the classes of hereditaments which constitute the English hereditaments or, as the case may be, the Welsh hereditaments.

(2) For the purposes of determining the recalculation factor applicable in a relevant year, article 7 shall apply as if, in calculating the amount assigned to Y or, in a case to which article 7(3) applies, the number assigned to Z , water supplied by or to the scheme transferee to or by another party to the Schedule 2 scheme were ignored.

EXPLANATORY NOTE

(This note is not part of the Order)

Under paragraph 3(2) of Schedule 6 to the Local Government Finance Act 1988, the Secretary of State may by order provide in the case of non-domestic hereditaments to be shown in the central rating lists for England and for Wales that the normal rules of valuation for rating contained in paragraphs 2 to 2B of that Schedule are not to apply to such hereditaments, and instead their rateable values shall be such as are specified in the order or determined in accordance with prescribed rules.

Water supply hereditaments occupied (or, if unoccupied, owned) by water undertakers named in Part 6 of the Schedule to the Central Rating Lists Regulations 1994 are required by those Regulations to be shown in the central rating lists for England and Wales. This Order provides that paragraphs 2 to 2B shall not apply in respect of such hereditaments, prescribes values for those hereditaments for the financial year 1995/96 and prescribes rules according to which their rateable values are to be determined in future years.

Article 4(1) revokes with effect from 1st April 1995 the Water Undertakers (Rateable Values) Order 1989 and article 3(1) of the Non-Domestic Rating (Appropriate Fraction and Rateable Values) Order 1991. These provisions shall continue to have effect for the purposes mentioned in article 4(2).
