“SCHEDULE 5

Regulation 28

MERGERS OF DEFINED CLASSES OF HEREDITAMENTS

Defined classes merged: new class of hereditaments

1. In this Schedule, a “new class” is a class of hereditaments which comes into existence by virtue of two or more classes of hereditaments, each of which is prescribed as respects a designated person by regulations for the purposes of section 53(1) of the Act, merging to form a single class of hereditaments, and a “former class” in relation to a new class is any of the classes of hereditaments from which it was formed.

Case where this Schedule applies

2. This Schedule applies where—
- (a) on a day (“the merger day”) after 1st April 2000 a new class comes into existence;
 - (b) immediately before the merger day at least one of the former classes in relation to the new class was a defined class of hereditaments; and
 - (c) a rateable value is shown for the new class in the list for—
 - (i) the merger day;
 - (ii) the relevant day (if different from the merger day), and
 - (iii) each day (if any) falling after the merger day and before the relevant day.

Application of Part V to new class

3. Subject to paragraphs 4 to 6 below, where this Schedule applies Part V of these Regulations shall apply on and after the merger day as if the new class were a defined class of hereditaments.

Chargeable amount for new class

4.—(1) For the merger day and for each subsequent chargeable day in the relevant year in which the merger day occurs regulation 34 shall not apply and the chargeable amount for the new class shall be the aggregate of the amounts which would, but for the merger, have been the chargeable amounts for the former classes for the merger day.

(2) For the purposes of determining the amounts which would, but for the merger, have been the chargeable amounts for the former classes for the merger day, the appropriate valuation officer shall, for each former class, certify the rateable value which would have appeared in the central list for the merger day if the merger had not occurred.

Base liability for new class

5.—(1) For the relevant year immediately following the relevant year in which the merger day occurs, regulation 30 shall not apply and the base liability for the new class shall be found by applying the formula—

$CA \times C$.

- (2) For the purposes of this paragraph—

CA	is the chargeable amount for the new class for the merger day; and
C	is the number of days in the number of days in the second relevant year.

Notional chargeable amount for new class

EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations, which extend to England only, amend the Non-Domestic Rating (Chargeable Amounts) (England) Regulations 1999.

Regulation 3 amends regulation 6 of the 1999 Regulations to provide that, in the case of properties which were small hereditaments on 31st March 2000, calculation of the base liability for the year 2000/2001 takes account of the small hereditament factor which applies in the year 1999/2000.

Regulation 4 amends regulation 15 of the 1999 Regulations which contains special rules where there is a material change of circumstances on 1st April 2000. The amendment includes assumptions prescribed under paragraph 2(8) of Schedule 6 to the Local Government Finance Act 1988 (“the Act”) among the factors which are relevant for this purpose.

Regulations 6, 7 and 12 correct errors in the 1999 Regulations, and regulation 13 updates references to electricity generation companies.

Regulation 8 inserts a new regulation 27A which contains special rules which apply where the rateable value shown in a rating list is altered but that alteration has effect from a day later than the day on which the hereditament in question was first shown in the list. Regulation 5 makes a consequential amendment.

Regulations 9 and 14 make provision for the case where two or more classes of hereditament, each of which is shown in the central rating list and for each of which the rateable value is determined by order under paragraph 3(2) of Schedule 6 to the Act, are merged to form a single such class after 1st April 2000. Regulation 10 provides for the case where two or more such classes are merged on that date.

Draft Legislation: *This is a draft item of legislation. This draft has since been made as a UK Statutory Instrument: The Non-Domestic Rating (Chargeable Amounts) (Amendment) (England) Regulations 2000 No. 936*

Regulation 11 amends the period within which an appeal against a certificate issued by a valuation officer may be made.
