

# CARE ACT 2014

---

## EXPLANATORY NOTES

### COMMENTARY ON SECTIONS

#### Part 1 – Care and Support

#### Continuity of care and support when adult moves

##### *Section 37 – Notification, assessment, etc.*

244. This section sets out the duties that local authorities are under when an individual, and potentially their carer, notifies them that they intend to move from one local authority area to another. It seeks to ensure that a person who moves local authority area does so with no interruption to their care.
245. *Subsection (1)* stipulates that the duties on the “first authority” and the “second authority” are triggered when they are notified by an adult who is receiving care and support that he or she wishes to move local authority area, and the “second authority” is satisfied that their intention to move is genuine.
246. *Subsection (2)* states that these duties also apply to local authorities where the “first authority” is keeping a care account on behalf of an individual who is funding their own care. This will allow for the person’s care account to be transferred to the “second authority”.
247. *Subsection (3)* applies where a person has their care and support arranged by the “first authority” and is residing in a care home in the “second authority’s” area. If that person decides to leave the care home but remain resident in the “second authority’s” area the continuity of care duties apply.
248. *Subsection (5)* sets out the information the “first authority” must provide to the “second authority”. This includes the person’s care and support plan, and where the individual’s carer is moving, their support plan.
249. *Subsection (6)* states that when the “second authority” is satisfied of an individual’s intention to move they are under a duty to carry out an assessment of the needs of that individual, and potentially their carer. This assessment should be carried out before the individual moves. This is the same duty as set out in section 9. *Subsection (7)* requires the “second authority” to take into account the “first authority’s” care and support plan when carrying out their assessment.
250. *Subsection (9)* requires the “first authority” to maintain contact with the “second authority” to ascertain how it is progressing towards putting services in place for the adult, and if necessary their carer, for the day of the move. *Subsection (10)* requires the “first authority” to involve the adult or carer in the contact and keep him or her informed of progress.
251. *Subsection (11)* requires the “second authority” to give the adult a written explanation where it has assessed the adult as having different needs compared with the original care and support plan. *Subsection (13)* places a similar requirement on the “second authority” where the carer’s needs are assessed as different.

*These notes refer to the Care Act 2014 (c.23) which received Royal Assent on 14 May 2014*

252. *Subsection (12)* requires the “second authority” to give an explanation where the cost of providing the care is different.
