Flexi-access drawdown funds

- 3 (1) In Schedule 28 to FA 2004 after paragraph 8 insert—

Changes to legislation: There are currently no known outstanding effects for the Taxation of Pensions Act 2014. (See end of Document for details)

- (2) The sums and assets that make up the fund immediately before the payment is made become newly-designated funds immediately before the payment is made (so that the payment is made out of the member's flexi-access drawdown fund in respect of the arrangement and therefore is not part of the total capped by pension rule 5).
- (3) For the purposes of sub-paragraph (1)(c), a payment of drawdown pension in respect of an arrangement is one that would breach the cap if, when its amount is added to the amounts of any drawdown pension in respect of the arrangement—

 - (b) the sums or assets transferred are, under the arrangement under the new scheme for whose purposes they are first held after the transfer, designated as available for the payment of drawdown pension.
- (2) If the member, when or before making the designation, notifies the scheme administrator of the new scheme that the member wishes the sums or assets to be newly-designated funds, the sums or assets become newly-designated funds and do so—
- (a) when the designation is made, or

- except that, if both the designation and transfer are made before 6 April 2015, the sums or assets become newly-designated funds at the start of 6 April 2015.

- (a) there is a recognised transfer from one registered pension scheme (“the old scheme”) to another registered pension scheme (“the new scheme”) of dependant-designated funds held for the purposes of an arrangement under the old scheme, and
 - (b) the sums or assets transferred are, under the arrangement under the new scheme for whose purposes they are first held after the transfer, designated as available for the payment of drawdown pension.
- (2) If the dependant, when or before the designation is made, notifies the scheme administrator of the new scheme that the dependant wishes the sums or assets to be newly-designated dependant funds, the sums or assets become newly-designated dependant funds and do so—

 - (c) in respect of which the pension input amount is input amount C mentioned in section 237.
- (2) As respects each relevant hybrid arrangement in the maximising set of relevant hybrid arrangements—
- (a) the pension input amount in respect of the arrangement is for the purposes of sections 227B(3)(b) and 227C(1)(b) treated as being not input amount C mentioned in section 237 but, instead, the greater of such of input amounts A and B mentioned in section 237 as are, for the purposes of section 237, relevant input amounts in the case of the arrangement, and
 - (b) accordingly, the arrangement—
 - (i) is not to be included among the arrangements mentioned in section 227B(3)(b) whose pension input amounts are totalled under section 227B(3), but
 - (ii) is to be included among the arrangements mentioned in section 227C(1)(b) whose pension input amounts are totalled under section 227C(1).
- (3) For the purposes of subsection (2)—
- (a) the maximising set contains no relevant hybrid arrangements,
 - (b) a particular relevant hybrid arrangement makes up that set, or
 - (c) two or more particular relevant hybrid arrangements make up that set,

if the alternative chargeable amount with the maximising set so made up is not less than it would be with the maximising set made up in any other way.

Changes to legislation: There are currently no known outstanding effects for the Taxation of Pensions Act 2014. (See end of Document for details)

- (4) In particular, the maximising set may be identified by taking the following steps—

Step 1 Identify all of the relevant hybrid arrangements.

Step 2 Identify all of the different combinations of the arrangements identified at Step 1 (including the combination consisting of all of those arrangements, and the combination consisting of none of them, as well as every possible combination of each possible size in between).

Step 3 For each combination identified at Step 2 calculate what the money-purchase input sub-total would be if each relevant hybrid arrangement in the combination were treated in accordance with the rules in paragraphs (a) and (b) of subsection (2).

Step 4 If the result of each calculation at Step 3 is less than or equal to £10,000 the chargeable amount is the default chargeable amount.

Step 5 If the amount calculated at Step 3 for a combination is greater than £10,000 then calculate in accordance with section 227B what the alternative chargeable amount would be if—

- (a) each relevant hybrid arrangement in the combination were treated in accordance with the rules in paragraphs (a) and (b) of subsection (2), and
- (b) for each relevant hybrid arrangement not in the combination, input amount C mentioned in section 237 were included in the total under section 227B(3).

Step 6 Identify the highest (or higher) of the amounts calculated at Step 5. The maximising set is made up of each relevant hybrid arrangement in the combination concerned.

- (5) Subsection (1)(c) is to be read with section 227B(5) (hybrid arrangements where input amount C is highest-equal input amount).
- (6) A hybrid arrangement is not a relevant hybrid arrangement if section 227E(2) applies in the case of that arrangement.

Pension input periods ending before rights are first flexibly accessed

227E) Subsections (2) and (3) apply if, for an arrangement mentioned in section 227C(1), the pension input period ending in the tax year is a period that ends before the individual first flexibly accesses pension rights.

- (2) The pension input amount in respect of the arrangement is for the purposes of section 227C(1) treated as being nil.
- (3) The (actual) pension input amount in respect of the arrangement (see section 229(2)(a), (b) or (d)) is required to be included in the defined-benefit input sub-total calculated under section 227B(3).

Pension input periods in which rights are first flexibly accessed

227F) Subject to subsection (7), subsections (2) to (6) apply if, for an arrangement mentioned in section 227C(1), the pension input period ending in the tax year contains the day on which the individual first flexibly accesses pension rights (whether or not that day is in the tax year).

Changes to legislation: There are currently no known outstanding effects for the Taxation of Pensions Act 2014. (See end of Document for details)

- (2) If the arrangement is a cash balance arrangement, the pension input amount in respect of that arrangement is for the purposes of section 227C(1)(a) treated as being—

$$\frac{F}{PIP} \times \text{APIA}$$

where—

APIA is the (actual) pension input amount in respect of the arrangement (see section 229(2)(a)),

- (a) beginning with the day after that on which the individual first flexibly accesses pension rights, and
- (b) ending at the end of the pension input period mentioned in subsection (1), and

PIP is the number of days in that pension input period.

- (3) If the arrangement is a money purchase arrangement other than a cash balance arrangement, the pension input amount in respect of that arrangement is for the purposes of section 227C(1)(a) treated as being the amount in respect of the arrangement that would be arrived at under section 233 for a pension input period—
- (a) beginning with the day after that on which the individual first flexibly accesses pension rights, and
 - (b) ending at the end of the pension input period mentioned in subsection (1).
- (4) If the arrangement is a money purchase arrangement, the amount (if any) by which—
- (a) the (actual) pension input amount in respect of the arrangement (see section 229(2)(a) or (b)), exceeds
 - (b) the amount treated by subsection (2) or (3) as being the pension input amount in respect of the arrangement,
- is required to be included in the defined-benefit input sub-total calculated under section 227B(3).
- (5) If the arrangement is a hybrid arrangement—
- (a) input amount A mentioned in section 237 is for the purposes of sections 227C(1)(b) and 227D(2) treated as being—

Changes to legislation: There are currently no known outstanding effects for the Taxation of Pensions Act 2014. (See end of Document for details)

- (b) ending at the end of the pension input period mentioned in subsection (1), and

PIP is the number of days in that pension input period, and

- (b) input amount B mentioned in section 237 is for the purposes of sections 227C(1)(b) and 227D(2) treated as being the amount for the arrangement that would be arrived at under section 233 for a pension input period—
 - (i) beginning on the day after that on which the individual first flexibly accesses pension rights, and
 - (ii) ending at the end of the pension input period mentioned in subsection (1).
- (6) If the arrangement is a hybrid arrangement, the amount (if any) by which—
 - (a) the (actual) pension input amount in respect of the arrangement (see section 229(2)(d)), exceeds
 - (b) the amount which, in accordance with subsection (5) and section 227D, is for the purposes of section 227C(1)(b) the pension input amount in respect of the arrangement,
 is required to be included in the defined-benefit input sub-total calculated under section 227B(3).
- (7) Subsections (2) to (6) do not apply if section 165(3A) applied in the individual's case to the arrangement, or any other arrangement, at any time before 6 April 2015.
