The Secretary of State, in relation to England, and the Welsh Ministers, in relation to Wales, have in accordance with section 2(4) of the Pollution Prevention and Control Act 1999(a) consulted—

- (a) the Environment Agency;
- (b) such bodies or persons appearing to them to be representative of the interests of local government, industry, agriculture and small business respectively as they consider appropriate; and
- (c) such other bodies or persons as they consider appropriate.

The Secretary of State is designated(b) for the purposes of the European Communities Act 1972(c) in relation to the environment. The Welsh Ministers are designated(d) for the purposes of that Act in relation to the prevention, reduction and management of waste.

(a) 1999 c. 24. Functions of the Secretary of State under section 2 (except in relation to offshore oil and gas exploration and exploitation), so far as exercisable in relation to Wales, were transferred to the National Assembly for Wales by article 3 of S.I. 2005/1958. Those functions were then transferred to the Welsh Ministers by section 162 of, and paragraph 30 of Schedule 11 to, the Government of Wales Act 2006 (c. 32).

(b) S.I. 2008/301.

(c) 1972 c. 68.

(d) S.I. 2010/1552.

A draft of this instrument has been approved by a resolution of each House of Parliament and by the National Assembly for Wales pursuant to section 2(8) and (9)(d) and (e) of the Pollution Prevention and Control Act 1999(a), to paragraph 2(2) of Schedule 2 to the European Communities Act 1972 and to section 59(3) of the Government of Wales Act 2006(b).

The Secretary of State, in relation to England, and the Welsh Ministers, in relation to Wales, make these Regulations in exercise of the powers conferred by section 2(2) of the European Communities Act 1972 and by section 2 of, and Schedule 1 to, the Pollution Prevention and Control Act 1999.

PART 1

General

Citation, commencement and extent

1.—(1) These Regulations may be cited as the Waste (England and Wales) Regulations 2011.

(2) Subject to paragraph (3), they come into force on the day after the day on which they are made.

(3) Regulation 12 comes into force at the end of the period of 6 months beginning with the day on which these Regulations are made.

(4) These Regulations extend to England and Wales.

Application

2. Subject to regulation 47(2), these Regulations do not apply in relation to waste which is excluded from the scope of the Waste Framework Directive by Article 2(1), (2) or (3) of that Directive.

Interpretation

3.—(1) In these Regulations—

“appropriate authority” means—

(a) in relation to England, the Secretary of State;

(b) in relation to Wales, the Welsh Ministers;

“controlled waste” has the meaning given in section 75(4) of the Environmental Protection Act 1990(c);

(b) in relation to Wales has the meaning given in regulation 6 of the Hazardous Waste (Wales) Regulations 2005(e);

(a) The reference in section 2(8) of the 1999 Act to approval by each House of Parliament has effect in relation to the exercise of functions by the Welsh Ministers as if it were a reference to approval by the National Assembly for Wales by virtue of paragraph 33 of Schedule 11 to the Government of Wales Act 2006 (c. 32).

(b) 2006 c. 32.

(c) 1990 c. 43. The definition of “controlled waste” depends on the definitions of “household waste” in section 75(5), “industrial waste” in section 75(6) and “commercial waste” in section 75(7). Section 75(6) and (7) was amended by S.I. 2006/937.

“the Waste Framework Directive” means Directive 2008/98/EC of the European Parliament and of the Council on waste(b);

“waste management plan” has the meaning given in regulation 7(1);

“waste prevention programme” has the meaning given in regulation 4(1) and (2).

(2) Terms which are used but not defined in these Regulations and are used in the Waste Framework Directive have the same meaning as in that Directive.

PART 2

Waste prevention programmes

Establishment of waste prevention programmes

4.—(1) The appropriate authority must, not later than 12th December 2013—

- (a) evaluate the usefulness of the waste prevention measures set out as examples in Annex IV of the Waste Framework Directive and any other such measures the authority thinks fit; and
- (b) establish one or more programmes of waste prevention measures (each a “waste prevention programme”).

(2) A programme established before the coming into force of these Regulations may be a waste prevention programme.

(3) In this regulation, “waste prevention measures” means measures taken before a substance, material or product has become waste that reduce—

- (a) the quantity of waste, including through the re-use of products or the extension of the life span of products;
- (b) the adverse impacts of generated waste on the environment and human health; or
- (c) the content of harmful substances in materials and products.

Purposes etc. of waste prevention programmes

5. The appropriate authority must ensure that a waste prevention programme—

- (a) is compatible with the objectives in paragraphs 1 and 2 of Schedule 1;
- (b) has as its purpose a contribution towards breaking the link between economic growth and the environmental impacts associated with the generation of waste;
- (c) is expressed in writing and—
 - (i) sets out the objectives of the programme and a description of existing waste prevention measures; and
 - (ii) if it is integrated into a waste management plan or other programme, clearly identifies the programme’s waste prevention measures.

(a) See section 30(3), which was amended by the Local Government (Wales) Act 1994, sections 22(3) and 66(8) and paragraph 17(3) of Schedule 9.

 - (b) may establish qualitative or quantitative targets and indicators,
- against which to assess the value of waste prevention programmes.
- (2) An appropriate authority must publish the benchmarks and any targets or indicators it establishes.

PART 3

Waste management plans

Requirement for waste management plans

- 7.—(1) The appropriate authority must ensure that there are one or more plans containing policies in relation to waste management in England or Wales, as the case may be (each a “waste management plan”).
- (2) A waste management plan may form part of a document and, where this is the case, any requirement of law in relation to the plan applies only to that part.
- (3) In this Part—
- (a) “England” includes the sea adjacent to England out as far as the seaward boundary of the territorial sea;
 - (b) “Wales” includes the sea adjacent to Wales out as far as the seaward boundary of the territorial sea;
 - (c) the sea adjacent to England is so much of the sea adjacent to Great Britain as is not the sea adjacent to Wales or the sea adjacent to Scotland;
 - (d) the sea adjacent to Wales has the same meaning as it has by virtue of section 158(3) or (4) of the Government of Wales Act 2006(a); and
 - (e) the sea adjacent to Scotland has the same meaning as the internal waters and territorial sea of the United Kingdom adjacent to Scotland by virtue of section 126(2) of the Scotland Act 1998(b).

Content of waste management plans

- 8.—(1) The appropriate authority must ensure that the waste management plans (taken together) cover the whole of England or Wales, as the case may be.
- (2) The appropriate authority must ensure that the waste management plans (taken together)—
- (a) include a statement of the authority’s policies for attaining the objectives specified in Part 1 of Schedule 1; and
 - (b) include the matters set out in Part 2 of Schedule 1.
- (3) The appropriate authority must consider, in particular, whether the matters set out in Part 3 of Schedule 1 should be included in the waste management plans.
- (4) An appropriate authority must ensure that the waste management plans conform to the strategy for the reduction of biodegradable waste going to landfill—

(a) 2006 c.32. The boundary between the sea adjacent to Wales and that adjacent to England is described by article 6 and Schedule 3 to the National Assembly for Wales (Transfer of Functions) Order 1999 (S.I. 1999/672). By virtue of section 162 of and paragraph 26 of Schedule 11 to the 2006 Act, S.I. 1999/672 continues to have effect.

(b) 1998 c.46. The boundaries between waters which are to be treated as internal waters or territorial sea of the United Kingdom adjacent to Scotland and those which are not are set out in the Scottish Adjacent Water Boundaries Order 1999 (S.I. 1999/1126).

- (a) in relation to England, required by section 17(1) of the Waste and Emissions Trading Act 2003(a);
 - (b) in relation to Wales, required by section 19(1) of that Act.

PART 5

Duties in relation to waste management and improved use of waste as a resource

Duty in relation to the waste hierarchy

12.—(1) An establishment or undertaking which imports, produces, collects, transports, recovers or disposes of waste, or which as a dealer or broker has control of waste must, on the transfer of waste, take all such measures available to it as are reasonable in the circumstances to apply the following waste hierarchy as a priority order—

- (a) prevention;
- (b) preparing for re-use;
- (c) recycling;
- (d) other recovery (for example energy recovery);
- (e) disposal.

(2) But an establishment or undertaking may depart from the priority order in paragraph (1) so as to achieve the best overall environmental outcome where this is justified by life-cycle thinking on the overall impacts of the generation and management of the waste.

(3) When considering the overall impacts mentioned in paragraph (2), the following considerations must be taken into account—

- (a) the general environmental protection principles of precaution and sustainability;
- (b) technical feasibility and economic viability;

(a) S.I. 2004/1633.

(b) S.I. 2004/1656 (W. 170).

- (c) protection of resources;
- (d) the overall environmental, human health, economic and social impacts.

Duties in relation to collection of waste

13.—(1) An establishment or undertaking which collects waste paper, metal, plastic or glass must, from 1st January 2015, take all such measures to ensure separate collection of that waste as are available to the establishment or undertaking in that capacity and are—

- (a) technically, environmentally and economically practicable; and
- (b) appropriate to meet the necessary quality standards for the relevant recycling sectors.

(2) For the avoidance of doubt, co-mingled collection (being the collection together with each other but separately from other waste of waste streams intended for recycling with a view to subsequent separation by type and nature) is a form of separate collection.

(3) Every waste collection authority must, when making arrangements for the collection of waste paper, metal, plastic or glass, ensure that those arrangements are by way of separate collection.

Duty in relation to collected waste

14.—(1) An establishment or undertaking which collects, transports or receives waste paper, metal, plastic or glass must, from 1st January 2015, take all such measures available to it in that capacity as are reasonable in the circumstances to ensure that where that waste has been separately collected it is not mixed with other waste or other material with different properties.

(2) This duty applies only where keeping waste separate facilitates or improves recovery.

Guidance

15.—(1) The appropriate authority may give guidance on the discharge of the duties in regulations 12 to 14.

(2) An establishment or undertaking discharging any of the duties in regulations 12 to 14 must, in doing so, have regard to any such guidance.

SCHEDULE 1

Regulations 5, 8 and 11

Waste prevention programmes and waste management plans

PART 1

Objectives

Overall objective

1. To protect the environment and human health by preventing or reducing the adverse impacts of the generation and management of waste and by reducing overall impacts of resource use and improving the efficiency of such use.

Application of the waste hierarchy

2.—(1) To apply the following waste hierarchy as a priority order in waste prevention and management policy—

- (a) prevention;
- (b) preparing for re-use;
- (c) recycling;
- (d) other recovery (for example energy recovery);
- (e) disposal.

(2) When applying the waste hierarchy in sub-paragraph (1), the appropriate authority must ensure that it—

- (a) encourages the options that deliver the best overall environmental outcome, which may require specific waste streams to depart from the hierarchy where this is justified by life-cycle thinking on the overall impacts of the generation and management of such waste;
- (b) takes into account—
 - (i) the general environmental protection principles of precaution and sustainability,
 - (ii) technical feasibility and economic viability,
 - (iii) protection of resources, and
 - (iv) the overall environmental, human health, economic and social impacts.

Protection of human health and the environment

Principles of self-sufficiency and proximity

4.—(1) To establish an integrated and adequate network of waste disposal installations and of installations for the recovery of mixed municipal waste collected from private households, including, where such collection also covers such waste from other producers, taking into account best available techniques.

(2) The network must be designed to enable the European Union as a whole to become self-sufficient in waste disposal and in the recovery of mixed municipal waste collected from private households, and to enable the United Kingdom to move towards that aim taking into account geographical circumstances or the need for specialised installations for certain types of waste.

(3) The network must enable waste to be disposed of and mixed municipal waste collected from private households to be recovered in one of the nearest appropriate installations, by means of the most appropriate technologies, in order to ensure a high level of protection for the environment and human health.

(4) This paragraph does not require that the full range of final recovery facilities be located in England or in Wales or in England and Wales together.
