7.—(1) In paragraph (b) of regulation 14 of the principal regulations (under which a contributory employee who has had a disqualifying break of service after being subject to provisions corresponding to those of that regulation is not entitled to have his retirement grant increased in accordance

(3) At the end of paragraph (i) of the proviso to the said regulation 14 there shall be inserted the words "so however that the increase shall not be greater in the case of a person as respects whom part only of the grant falls to be calculated as aforesaid than it would have been if the whole of the grant had fallen to be so calculated".

(5) After the said paragraph (ii) there shall be inserted the following paragraph:—

8. In paragraph (3) of regulation 17 of the principal regulations (under which a person who has exercised an option under that regulation is entitled to enjoy rights corresponding to his former rights so long as he continues to be a contributory employee without a disqualifying break of service) after the words "contributory employee" there shall be inserted the words "within the meaning of the Act of 1937", and at the end of the said paragraph the following proviso shall be inserted:—

9. The following paragraphs shall be inserted after paragraph (14) of regulation 21 of the principal regulations:—

"(15) Where immediately before the first day of October, 1954, the Act of 1937 applied to a contributory employee with the modifications relating to calculation of service mentioned in paragraph (4) of regulation

53 of the regulations of 1950, and the employee has since that date been subject to this regulation without a break of twelve months or more at any one time, and without in the meantime having again entered employment in which he was subject to regulations made under paragraph (a) of subsection (1) of section 67 of the National Health Service Act, 1946, his service shall count, for the purpose of the calculation of any benefit under these regulations, in the manner provided by the said paragraph (4).

(16) In the case of a person in the employment of a single local authority to whom, in consequence of his having been employed in two or more part-time employments, the provisions of more than one of paragraphs (4), (5), (6) and (12) of this regulation apply, the amount of the increase of the retirement grant shall be ascertained by aggregating the amounts which would be payable by way of increase if he had continued in each of the part-time employments until the date on which he ceased to hold the first-mentioned employment and his average remuneration in respect of each part-time employment had been an amount which bears the same proportion to his average remuneration in the employment which he ceased to hold as the remuneration of the part-time employment bears to the aggregate of the remuneration of the part-time employments."

10. At the end of regulation 22 of the principal regulations (which relates to local Act contributors on the medical or nursing staff of a local authority) the following paragraph shall be inserted:—

"(4) Paragraph (14) of the said regulation 21, in its application to such a local Act contributor as aforesaid, shall have effect as if the words "not being employment with a local authority" were omitted."

11. The following paragraph shall be substituted for paragraph (1) of regulation 28 of the principal regulations:—

"(1) If by virtue of regulation 11 of the modification regulations (which relates to persons who were subject to a scheme made pursuant to subsection (3) of section 28 of the Act of 1936) the provisions of the Act of 1937 with respect to the payment of contributions apply to a person immediately before he becomes entitled to a retirement benefit subject to the like modifications as were applicable in relation to him by virtue of the existing scheme to which that regulation refers, or would have applied to a person subject to such modifications but for the revocation by the said existing scheme of provisions relating to the modification of contributions, the retirement benefit shall be subject to the like modifications as were applicable to him by virtue of the said existing scheme, and if he is entitled to a retirement grant the amount thereof shall be reduced by the amount ascertained by—

(a) multiplying three eightieths of the amount which, by the existing scheme, was required to be deducted from the annual average of his remuneration in calculating his superannuation allowance by the number of years of contributing service in respect of which his retirement benefit is by virtue of the said modifications reduced;

(b) multiplying three one hundred and sixtieths of the amount which was required to be deducted as aforesaid by the number of years of non-contributing service in respect of which his retirement benefit is by virtue of the said modifications reduced; and

(c) increasing the sum of the products by one half per cent. for any such year of contributing service, and by one quarter per cent. for any such year of non-contributing service, in respect of which his retirement grant is increased under regulation 14 of these regulations:

Provided that—

- (i) where a person's retirement pension is by virtue of paragraph (3) of regulation 5 of these regulations at the rate of twenty eightieths of his average remuneration he shall be treated as having had, and as having paid reduced contributions in respect of, additional contributing service equal to the difference between the period of his service (non-contributing service being reckoned in calculating that period at half its actual length) and twenty years ;
- (ii) where the existing scheme contains provision that the superannuation allowance shall not be reduced below a sum calculated by reference to a fraction of a person's average remuneration, that provision shall apply to the reduction of a retirement pension as if the reference to the said fraction were a reference to sixty eightieths thereof ;
- (iii) so much of this paragraph as relates to the reduction of a retirement grant shall not apply to any person unless under the existing scheme the amount of the reduction of benefit is calculated by reference to the annual average of his remuneration ;
- (iv) where under the existing scheme the reduction is subject to a maximum amount in respect of each year or other shorter period of payment the retirement grant shall not be reduced by any greater amount than the amount by which the capital value of the said maximum amount (or, as the case may be, of the annual equivalent of the maximum amount) exceeds the capital value of the amount by which the retirement pension is reduced."

**12.** In regulation 31 of the principal regulations (which provides for the reduction of amounts payable under regulations 12 and 15 of those regulations by a person whose contributions are subject to modification) for the words "shall be reduced by the amount obtained" there shall be substituted the words "shall be reduced in the case of the additional contributions mentioned in paragraph (a) of this regulation by the annual amount, and in the case of any amount to which paragraph (b) thereof applies by the lump sum, obtained".

**13.** For sub-paragraph (3) of paragraph 7 of the second schedule to the principal regulations (which provides for the manner of calculation of the sum payable by an employee for each year of non-contributing service which in pursuance of subsection (3) of section 2 of the Act of 1953 he wishes to have reckoned as contributing service) the following paragraph shall be substituted:—

"(3) The sum payable by an employee for each year of non-contributing service which he wishes to have reckoned as contributing service is a sum equal to that percentage of his remuneration which is shown opposite his age in the appropriate column of the said table, and so proportionately for any period of less than a year:

Provided that if at the time when the notice under paragraph 2 of this schedule is given the employee is in whole-time employment, non-contributing service which was part-time shall be reckoned for the purposes of this paragraph as if it were whole-time service for a proportionately reduced period."

**14.** In sub-paragraph (4) of paragraph 2 of the third schedule to the principal regulations (which contains provisions as to the manner of counting

service for the purpose of calculating the reduction of retirement benefits) for head (b) there shall be substituted the following provision:—

“(b) where a retirement pension is, by virtue of paragraph (3) of regulation 5 of these regulations, at the rate of twenty eightieths of a person’s average remuneration, he shall be treated as having reckonable as contributing service in calculating the amount of the pension, and as having paid reduced contributions in respect of, an additional period equal to the difference between the aggregate of his contributing and non-contributing service (non-contributing service being reckoned for that purpose at half its actual length) and twenty years.”

15. In paragraph (3) of regulation 7 of the principal regulations (which provides in relation to injury allowances that an injury sustained while an employee is travelling as a passenger by any vehicle shall in certain circumstances be deemed to have been sustained in the actual discharge of his duty)—

- (a) after the word “duty” there shall be inserted the words “and to be specifically attributable to the nature of his duty”; and
- (b) in sub-paragraph (a) after the word “sustained” there shall be inserted the words “and so to be attributable”.

Given under the official seal of the Minister of Housing and Local Government this thirteenth day of July, nineteen hundred and fifty-five.

### EXPLANATORY NOTE

*(This Note is not part of the Regulations but is intended to indicate their general purport.)*

These regulations make detailed amendments in the Local Government Superannuation (Benefits) Regulations, 1954. The regulations in the main remedy defects of drafting in those regulations and in general are so framed as to show what change is being made.

Regulation 9 amends regulation 21 of the regulations of 1954 (which relates to contributory employees on the medical or nursing staff of a local authority) by adding new paragraphs—

- (a) to take the place of regulation 53 (4) of the National Health Service (Superannuation) Regulations, 1950, (which under section 4 (1) (c) of the Act of 1953 ceased to have effect on the 1st October, 1954);
- (b) to provide for the method of calculation of the retirement grant of a person in a single employment who had previously had two or more part-time employments.

Regulation 11 re-writes regulation 28 (1) of the regulations of 1954, the main changes being in the method of calculating the reduction of a retirement grant (paragraphs (a), (b) and (c)) and the addition of new paragraphs (i), (ii) and (iv) to the proviso.
