

SCHEDULE 4

Article 3(1)

Part A.

Special requirements which must be met for the introduction and movement of plants, plant products and other objects into and within Great Britain.

Section 1.

Plants, plant products and other objects originating outside the Community.

<i>Plants, plant products and other objects</i>	<i>Special requirements</i>
<p>1.1. Wood of conifers (Coniferales), except that of <i>Thuja</i> L., other than wood in the form of:</p> <ul style="list-style-type: none"> — chips, particles, wood waste, or scrap obtained in whole or part from these conifers, — packing cases, crates or drums, — pallets, box pallets or other load boards, — dunnage, spacers and bearers, <p>but including that which has not kept its natural round surface, originating in Canada, China, Japan, Korea, Taiwan and the USA</p>	<p>There shall be evidence by application of an indicator system, applied to the wood, that it has undergone an appropriate heat treatment to achieve a minimum wood core temperature of 56°C for 30 minutes</p>
<p>1.2 Wood of conifers (Coniferales), in the form of chips, particles, wood waste or scrap obtained in whole or part from these conifers, originating in Canada, China, Japan, Korea, Taiwan and the USA</p>	<p>Official statement</p> <ul style="list-style-type: none"> (a) that the product has undergone an appropriate fumigation shipboard or in a container prior to shipment and (b) that the product shall be shipped in sealed containers or in such a way as to prevent any reinfestation
<p>1.3 Wood of conifers (Coniferales), except that of <i>Thuja</i> L., in the form of packing cases, crates, drums, pallets, box pallets or other load boards, dunnage, spacers and bearers including that which has not kept its natural round surface, originating in Canada, China, Japan, Korea, Taiwan and the USA</p>	<p>The wood shall be stripped of its bark, and shall be free from grub holes, caused by the genus <i>Monochamus</i>(non-European spp.), defined for this purpose as those which are larger than 3 mm across, and shall have a moisture content expressed as a percentage of dry matter, of less than 20%, achieved at the time of manufacture</p>
<p>1.4 Wood of <i>Thuja</i> L., including that which has not kept its natural round surface, originating in Canada, China, Japan, Korea, Taiwan and the USA</p>	<p>The wood shall be stripped of its bark, and shall be free from grub holes, caused by the genus <i>Monochamus</i>(non-European spp.), defined for this purpose as those which are larger than 3 mm across</p>
<p>1.5 Wood of conifers (Coniferales), other than wood in the form of chips, particles, wood waste or scrap obtained in whole or part from these conifers, but including that which has not kept its natural round surface, originating in non-European countries, other than Canada, China, Japan, Korea, Taiwan and the USA</p>	<ul style="list-style-type: none"> (a) The wood shall be stripped of its bark and shall be free from grub holes, caused by the genus <i>Monochamus</i>(non-European spp.), defined for this purpose as those which are larger than 3 mm across, or (b) there shall be evidence by a mark “Kiln-dried”, or “K.D.” or another

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

<i>Plants, plant products and other objects</i>	<i>Special requirements</i>
	internationally recognised mark, put on the wood or on its packaging in accordance with current commercial usage, that it has undergone kiln-drying to below 20% moisture content, expressed as a percentage of dry matter, at time of manufacture, achieved through an appropriate time/temperature schedule
2.1 Wood of <i>Acer saccharum</i> Marsh., including wood which has not kept its natural round surface, other than wood intended for the production of veneer, originating in North American countries	There shall be evidence by a mark “Kiln-dried”, “K.D.” or another internationally recognised mark, put on the wood or on its packaging in accordance with current commercial usage, that it has undergone kiln-drying to below 20% moisture content, expressed as a percentage of dry matter, at time of manufacture, achieved through an appropriate time/temperature schedule
2.2 Wood of <i>Acer Saccharum</i> Marsh., other than wood listed in 2.1, originating in North American countries	There shall be evidence by the appropriate accompanying documents, or some other means that the wood is intended for the production of veneer sheets
3 Wood of <i>Castanea</i> Mill, and <i>Quercus</i> L., including wood which has not kept its natural round surface, originating in North American countries	<p>The wood shall be stripped of its bark, and</p> <ul style="list-style-type: none"> (a) either be squared so as to remove entirely the rounded surface, or (b) official statement that the water content of the wood does not exceed 20% expressed as a percentage of the dry matter, or (c) official statement that the wood has been disinfected by an appropriate hot-air or hot water treatment, <p>or in the case of sawn wood with or without residual bark attached, there shall be evidence by a mark “Kiln-dried”, “K.D.” or another internationally recognised mark, put on the wood or its packaging in accordance with current commercial usage, that it has undergone kiln-drying to below 20% moisture content, expressed as a percentage of dry matter, at time of manufacture, achieved through an appropriate time/temperature schedule</p>
4 Wood of <i>Castanea</i> Mill.	<p>Without prejudice to the requirements applicable to the plant products listed in Schedule 4A1(3),</p> <ul style="list-style-type: none"> (a) official statement that the wood originates in areas known to be free from <i>Cryphonectria parasitica</i>(Murrill) Barr, or (b) the wood shall be stripped of its bark

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

<i>Plants, plant products and other objects</i>	<i>Special requirements</i>
5 Wood of <i>Platanus</i> L., including wood which has not kept its natural round surface, originating in the USA or Armenia	There shall be evidence by a mark “Kiln-dried”, “K.D.” or another internationally recognised mark, put on the wood or on its packaging in accordance with current commercial usage, that it has undergone kiln-drying to below 20% moisture content, expressed as a percentage of dry matter, at time of manufacture, achieved through an appropriate time/temperature schedule
6 Wood of <i>Populus</i> L., originating in countries of the American continent	The wood shall be stripped of its bark
7 Wood in the form of chips, particles, wood waste or scrap and obtained in whole or part from <i>Acer saccharum</i> Marsh., <i>Castanea</i> Mill., <i>Platanus</i> L., <i>Populus</i> L., and <i>Quercus</i> L., originating in non-European countries, and conifers (Coniferales) originating in non-European countries other than Canada, China, Japan, Korea, Taiwan and the USA	The product shall have been produced exclusively from wood which was stripped of its bark or which has undergone either kiln-drying to below 20% moisture content, expressed as a percentage of dry matter at time of manufacture, achieved through an appropriate time/temperature schedule or fumigation shipboard or in a container prior to shipment, and shall be shipped in sealed containers or in such a way as to prevent any re-infestation
8.1 Plants of conifers (Coniferales) other than fruit and seeds originating in non-European countries	Without prejudice to the prohibitions applicable to the plants listed in Schedule 3A(1), where appropriate, official statement that the plants have been produced in nurseries and that the place of production is free from <i>Pissodes</i> spp. (non-European)
8.2 Plants of conifers (Coniferales) other than fruit and seeds, over 3 m in height, originating in non-European countries	Without prejudice to the provisions applicable to the plants listed in Schedule 3A(1), and Schedule 4A1 (8.1), where appropriate, official statement that the plants have been produced in nurseries and that the place of production is free from Scolytidae spp. (non-European)
9 Plants of <i>Pinus</i> L., intended for planting, other than seeds	Without prejudice to the provisions applicable to the plants listed in Schedule 3A(1), and Schedule 4A1 (8.1), (8.2), official statement that no symptoms of <i>Scirrhia acicola</i> (Dearn.) Siggers or <i>Scirrhia pini</i> Funk et Parker have been observed at the place of production or in its immediate vicinity since the beginning of the last complete cycle of vegetation
10 Plants of <i>Abies</i> Mill., <i>Larix</i> Mill., <i>Picea</i> A. Dietr., <i>Pinus</i> L., <i>Pseudotsuga</i> Carr., and <i>Tsuga</i> Carr. intended for planting, other than seeds	Without prejudice to the provisions applicable to the plants listed in Schedule 3A(1), and Schedule 4A1 (8.1), (8.2) or (9), where appropriate, official statement that no symptoms of <i>Melampsora medusae</i> Thümen have been observed at the place of production or in its

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

<i>Plants, plant products and other objects</i>	<i>Special requirements</i>
	immediate vicinity since the beginning of the last complete cycle of vegetation
11.1 Plants of <i>Castanea</i> Mill, and <i>Quercus</i> L., other than fruit and seeds:	Without prejudice to the prohibitions applicable to the plants listed in Schedule 3A(2),
(a) originating in non-European countries official statement that no symptoms of <i>Cronartium</i> spp. (non-European) have been observed at the place of production or in its immediate vicinity since the beginning of the last complete cycle of vegetation	
(b) originating in North American countries	official statement that the plants originate in areas known to be free from <i>Ceratocystis fagacearum</i> (Bretz) Hunt
11.2 Plants of <i>Castanea</i> Mill. and <i>Quercus</i> L., intended for planting other than seeds	Without prejudice to the provisions applicable to the plants listed in Schedule 3A(2) and Schedule 4A1 (11.1), official statement that:
	(a) the plants originate in areas known to be free from <i>Cryphonectria parasitica</i> (Murrill) Barr, or
	(b) no symptoms of <i>Cryphonectria parasitica</i> (Murrill) Barr have been observed at the place of production or in its immediate vicinity since the beginning of the last complete cycle of vegetation
12 Plants of <i>Platanus</i> L., intended for planting, other than seeds, originating in the USA or Armenia	Official statement that no symptoms of <i>Ceratocystis fimbriata</i> f.sp. <i>platani</i> Walter have been observed at the place of production or in its immediate vicinity since the beginning of the last complete cycle of vegetation
13.1 Plants of <i>Populus</i> L., intended for planting, other than seeds originating in third countries	Without prejudice to the prohibitions applicable to the plants listed in Schedule 3A(3), official statement that no symptoms of <i>Melampsora medusae</i> Thümen have been observed at the place of production or in its immediate vicinity since the beginning of the last complete cycle of vegetation
13.2 Plants of <i>Populus</i> L., other than fruit and seeds, originating in countries of the American continent	Without prejudice to the provisions applicable to the plants listed in Schedule 3A(3) and Schedule 4A1 (13.1), official statement that no symptoms of <i>Mycosphaerella populorum</i> G. E. Thompson have been observed at the place of production or in its immediate vicinity since the beginning of the last complete cycle of vegetation
14 Plants of <i>Ulmus</i> L., intended for planting, other than seeds, originating in North American countries	Official statement that no symptoms of Elm phloem necrosis mycoplasma have been observed at the place of production or in its immediate

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

<i>Plants, plant products and other objects</i>	<i>Special requirements</i>
	vicinity since the beginning of the last complete cycle of vegetation
15 Plants of <i>Chaenomeles</i> Lindl., <i>Crataegus</i> L., <i>Cydonia</i> Mill., <i>Eriobotrya</i> Lindl., <i>Malus</i> Mill., <i>Prunus</i> L., <i>Pyrus</i> L., intended for planting, other than seeds, originating in non-European countries	Without prejudice to the prohibitions applicable to the plants listed in Schedule 3A(9), (18) and Schedule 3B(1), where appropriate, official statement that: <ul style="list-style-type: none"> (a) the plants originate in a country known to be free from <i>Monilinia fructicola</i> (Winter) Honey, or (b) the plants originate in an area recognised as being free from <i>Monilinia fructicola</i> (Winter) Honey, and no symptoms of <i>Monilinia fructicola</i> (Winter) Honey have been observed at the place of production since the beginning of the last complete cycle of vegetation
16 From 15 February to 30 September, fruits of <i>Prunus</i> L.,	Official statement that: <ul style="list-style-type: none"> — the fruits originate in a country known to be free from <i>Monilinia fructicola</i> (Winter) Honey, or — the fruits originate in an area recognised as being free from <i>Monilinia fructicola</i> (Winter) Honey, or — the fruits have been subjected to appropriate inspection and treatment procedures prior to harvest and/or export to ensure freedom from <i>Monilinia</i> spp.
16.1 Fruits of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf. and their hybrids, originating in third countries	Without prejudice to the prohibitions applicable to the fruits in Schedule 3B(2), (3) the fruits shall be free from peduncles and leaves and the packaging shall bear an appropriate origin mark
16.2 Fruits of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf. and their hybrids, originating in third countries where <i>Xanthomonas campestris</i> (all strains pathogenic to Citrus) is known to occur	Without prejudice to the provisions applicable to the fruits in Schedule 3B(2), (3) and Schedule 4A1(16.1), (16.3) and (16.4), official statement that: <ul style="list-style-type: none"> (a) the fruits originate in areas known to be free from the relevant pest, or, if this requirement cannot be met (b) no symptoms of the relevant pest have been observed at the place of production and in its immediate vicinity since the beginning of the last cycle of vegetation, and representative samples of leaves drawn not earlier than 15 days before fruit harvesting have shown, in appropriate official testing, to be free from the relevant pest, and none of the fruits harvested at the place of production has shown, in appropriate official examination, symptoms of the relevant

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

<i>Plants, plant products and other objects</i>	<i>Special requirements</i>
	<p>pest, or, if this requirement can also not be met,</p> <p>(c) the fruits have not shown symptoms of the relevant pest and have been subjected to appropriate treatment such as chlorine or sodium orthophenylphenate</p>
<p>16.3 Fruits of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf. and their hybrids, originating in third countries where <i>Cercospora angolensis</i> Carv. et Mendes or <i>Guignardia citricarpa</i> Kiely (all strains pathogenic to Citrus) are known to occur</p>	<p>Without prejudice to the provisions applicable to the fruits in Schedule 3B(2), (3) and Schedule 4A1(16.1), (16.2) and (16.4), official statement that:</p> <p>(a) the fruits originate in areas known to be free from the relevant pests, or, if this requirement cannot be met</p> <p>(b) no symptoms of the relevant pests have been observed at the place of production and in its immediate vicinity since the beginning of the last cycle of vegetation and none of the fruits harvested at the place of production has shown, in appropriate official examination, symptoms of the relevant pests, or, if this requirement can also not be met,</p> <p>(c) the fruits have been subjected to appropriate treatment against the relevant pests</p>
<p>16.4 Fruits of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf. and their hybrids, originating in non-European third countries where Tephritidae (non-European) are known to occur on these fruits</p>	<p>Without prejudice to the provisions applicable to the fruits in Schedule 3B(2), (3) and Schedule 4A1 (16.1), (16.2) and (16.3), official statement that:</p> <p>(a) the fruits originate in areas known to be free from the relevant pests, or, if this requirement cannot be met</p> <p>(b) no signs of the relevant pests have been observed at the place of production and in its immediate vicinity since the beginning of the last complete cycle of vegetation, on official inspections carried out at least monthly during the three months prior to harvesting, and none of the fruits harvested at the place of production has shown, in appropriate official examination, signs of the relevant pests, or, if this requirement can also not be met,</p> <p>(c) the fruits have shown, in appropriate official examination on representative samples, to be free from the relevant pests in all stages of their development, or, if this requirement can also not be met,</p> <p>(d) the fruits have been subjected to an appropriate treatment; any acceptable</p>

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

Plants, plant products and other objects	Special requirements
	vapour heat treatment, cold treatment, or quick freeze treatment, which has been shown to be efficient against the relevant pests without damaging the fruit, and, where not available, chemical treatment as far as it is acceptable by Community legislation
17 Plants of <i>Chaenomeles</i> Lindl., <i>Cotoneaster</i> Ehrh., <i>Crataegus</i> L., <i>Cydonia</i> Mill., <i>Eriobotrya</i> Lindl., <i>Malus</i> Mill., <i>Mespilus</i> L., <i>Pyracantha</i> Roem., <i>Pyrus</i> L., <i>Sorbus</i> L. other than <i>Sorbus intermedia</i> (Ehrh.) Pers., <i>Stranvaesia</i> Lindl., intended for planting, other than seeds	Without prejudice to the provisions applicable to the plants listed in Schedule 3A(9), (18), Schedule 3B(1) or Schedule 4A1(15), where appropriate, official statement: (a) that the plants originate in countries recognised as being free from <i>Erwinia amylovora</i> (Burr.) Winsl. et al. or (b) that the plants in the field of production and in its immediate vicinity, which have shown symptoms of <i>Erwinia amylovora</i> (Burr.) Winsl. et al., have been rogued out
18 Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds, and plants of Araceae, Marantaceae, Musaceae, <i>Persea</i> spp. and Strelitziaceae, rooted or with growing medium attached or associated	Without prejudice to the prohibitions applicable to the plants listed in Schedule 3A(16), where appropriate, official statement that: (a) the plants originate in countries known to be free from <i>Radopholus citrophilus</i> Huettel et al. and <i>Radopholus similis</i> (Cobb) Thorne, or (b) representative samples of soil and roots from the place of production have been subjected, since the beginning of the last complete cycle of vegetation, to official nematological testing for at least <i>Radopholus citrophilus</i> Huettel et al. and <i>Radopholus similis</i> (Cobb) Thorne and have been found, in these tests, free from those plant pests
19.1 Plants of <i>Crataegus</i> L., intended for planting, other than seeds, originating in countries where <i>Phyllosticta solitaria</i> Ell. et Ev. is known to occur	Without prejudice to the provisions applicable to the plants listed in Schedule 3A(9), and Schedule 4A1 (15), (17), official statement that no symptoms of <i>Phyllosticta solitaria</i> Ell. et Ev. have been observed on plants at the place of production since the beginning of the last complete cycle of vegetation
19.2 Plants of <i>Cydonia</i> Mill., <i>Fragaria</i> L., <i>Malus</i> Mill., <i>Prunus</i> L., <i>Pyrus</i> L., <i>Ribes</i> L., <i>Rubus</i> L., intended for planting, other than seeds, originating in countries where the relevant plant pests are known to occur on the genera concerned	Without prejudice to the provisions applicable to the plants, where appropriate, listed in Schedule 3A(9), (18), or Schedule 4A1(15), (17), official statement that no symptoms of diseases caused by the relevant plant pests have been observed on the plants at the place of production since the beginning of the last complete cycle of vegetation
The relevant plant pests are	

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

Plants, plant products and other objects	Special requirements
<ul style="list-style-type: none"> — on <i>Fragaria</i> L. <ul style="list-style-type: none"> <i>Phytophthora fragariae</i> Hickman var.<i>fragariae</i> Arabis mosaic virus Raspberry ringspot virus Strawberry crinkle virus Strawberry latent ringspot virus Strawberry mild yellow edge virus Tomato black ring virus <i>Xanthomonas fragariae</i> Kennedy et King — on <i>Malus</i> Mill.: <ul style="list-style-type: none"> <i>Phyllosticta solitaria</i> Ell. et Ev. — on <i>Prunus</i> L.: <ul style="list-style-type: none"> Apricot chlorotic leafroll mycoplasma <i>Xanthomonas campestris</i> pv. <i>pruni</i> (Smith) Dye — on <i>Prunus persica</i>(L.) Batsch: <ul style="list-style-type: none"> <i>Pseudomonas syringae</i> pv.<i>persicae</i>(Prunier et al.) Young et al. — on <i>Pyrus</i> L.: <ul style="list-style-type: none"> <i>Phyllosticta solitaria</i> Ell. et Ev. — on <i>Rubus</i> L.: <ul style="list-style-type: none"> Arabis mosaic virus Raspberry ringspot virus Strawberry latent ringspot virus Tomato black ring virus — on all species: <ul style="list-style-type: none"> non-European viruses and virus-like organisms 	<p>Without prejudice to the provisions applicable to plants, listed in Schedule 3A(9), (18), and Schedule 4A1(15), (17), (19.2), official statement that plants at the place of production and in its immediate vicinity, which have shown symptoms giving rise to the suspicion of contamination by Pear decline mycoplasma, have been rogued out at that place within the last three complete cycles of vegetation</p>
<p>21.1 Plants of <i>Fragaria</i> L., intended for planting, other than seeds, originating in countries where the relevant plant pests are known to occur.</p>	
<p>The relevant plant pests are:</p> <ul style="list-style-type: none"> Strawberry latent 'C' virus Strawberry vein banding virus Strawberry witches' broom mycoplasma 	

<i>Plants, plant products and other objects</i>	<i>Special requirements</i>
Without prejudice to the provisions applicable to plants, listed in Schedule 3A(18) and Schedule 4A1(19.2), official statement that: (a) the plants, other than those raised from seed, have been: — either officially certified under a certification scheme requiring them to be derived in direct line from material which has been maintained under appropriate conditions and subjected to official testing for at least the relevant plant pests using appropriate indicators or equivalent methods and has been found free, in these tests, from those plant pests, or — derived in direct line from material which is maintained under appropriate conditions and has been subjected, within the last three complete cycles of vegetation, at least once, to official testing, for at least the relevant plant pests using appropriate indicators or equivalent methods and has been found free, in these tests, from those plant pests (b) no symptoms of diseases caused by the relevant plant pests have been observed on plants at the place of production, or on susceptible plants in its immediate vicinity, since the beginning of the last complete cycle of vegetation	
21.2 Plants of <i>Fragaria</i> L., intended for planting, other than seeds, originating in countries where <i>Aphelenchoides besseyi</i> Christie is known to occur	Without prejudice to the provisions applicable to plants listed in Schedule 3A(18) and Schedule 4A1(19.2), (21.1), official statement that: (a) either no symptoms of <i>Aphelenchoides besseyi</i> Christie have been observed on plants at the place of production since the beginning of the last complete cycle of vegetation, or (b) in the case of plants in tissue culture, the plants have been derived from plants which complied with section (a) of this item or have been officially tested by appropriate nematological methods and have been found free from <i>Aphelenchoides besseyi</i> Christie
21.3 Plants of <i>Fragaria</i> L., intended for planting, other than seeds	Without prejudice to the provisions applicable to the plants listed in Schedule 3A(18) and

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

<i>Plants, plant products and other objects</i>	<i>Special requirements</i>
<p>22.1 Plants of <i>Malus</i> Mill., intended for planting, other than seeds, originating in countries where the relevant plant pests are known to occur on <i>Malus</i> Mill.</p> <p>The relevant plant pests are: Cherry rasp leaf virus (American) Tomato ringspot virus</p>	<p>Schedule 4A1 (19.2), (21.1), (21.2), official statement that the plants originate in an area known to be free from <i>Anthonomus signatus</i> Say and <i>Anthonomus bisignifer</i>(Schenkling)</p> <p>Without prejudice to the provisions applicable to the plants, listed in Schedule 3A(9), (18), Schedule 3B(1) and Schedule 4A1(15), (17), (19.2), official statement that:</p> <p>(a) the plants have been:</p> <ul style="list-style-type: none"> — either officially certified under a certification scheme requiring them to be derived in direct line from material which has been maintained under appropriate conditions and subjected to official testing for at least the relevant plant pests using appropriate indicators or equivalent methods and has been found free, in these tests, from those plant pests, or — derived in direct line from material which is maintained under appropriate conditions and has been subjected, within the last three complete cycles of vegetation, at least once, to official testing for at least the relevant plant pests using appropriate indicators or equivalent methods and has been found free, in these tests, from those plant pests <p>(b) no symptoms of diseases caused by the relevant plant pests have been observed on plants at the place of production or on susceptible plants in its immediate vicinity, since the beginning of the last three complete cycles of vegetation</p>
<p>22.2 Plants of <i>Malus</i> Mill., intended for planting, other than seeds, originating in countries where Apple proliferation mycoplasma is known to occur</p>	<p>Without prejudice to the provisions applicable to the plants, listed in Schedule 3A(9), (18), Schedule 3B(1) and Schedule 4A1(15), (17), (19.2), (22.1), official statement that:</p> <p>(a) the plants originate in areas known to be free from Apple proliferation mycoplasma, or</p> <p>(b) (aa) the plants, other than those raised from seed, have been:</p> <ul style="list-style-type: none"> — either officially certified under a certification scheme requiring them to be derived in direct line from material which has been maintained under appropriate conditions

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

<i>Plants, plant products and other objects</i>	<i>Special requirements</i>
<p>23.1 Plants of the following species of <i>Prunus</i> L., intended for planting, other than seeds, originating in countries where Plum pox virus is known to occur:</p> <ul style="list-style-type: none"> <i>Prunus amygdalus</i> Batsch <i>Prunus armeniaca</i> L. <i>Prunus blireiana</i> Andre <i>Prunus brigantina</i> Vill. <i>Prunus cerasifera</i> Ehrh. <i>Prunus cistena</i> Hansen <i>Prunus curdica</i> Fenzl et Fritsch. <i>Prunus domestica</i> ssp.<i>domestica</i> L. <i>Prunus domestica</i> ssp.<i>insititia</i>(L.) C.K. Schneid. <i>Prunus domestica</i> ssp.<i>italica</i>(Borkh.) Hegi <i>Prunus glandulosa</i> Thunb. <i>Prunus holosericea</i> Batal. <i>Prunus hortulana</i> Bailey <i>Prunus japonica</i> Thunb. <i>Prunus mandshurica</i>(Maxim.) Koehne <i>Prunus maritima</i> Marsh. <i>Prunus mume</i> Sieb. et Zucc. 	<p>and subjected to official testing for at least Apple proliferation mycoplasma using appropriate indicators or equivalent methods and has been found free, in these tests, from that plant pest, or</p> <ul style="list-style-type: none"> — derived in direct line from material which is maintained under appropriate conditions and has been subjected, within the last six complete cycles of vegetation, at least once, to official testing for at least Apple proliferation mycoplasma using appropriate indicators or equivalent methods and has been found free, in these tests, from that plant pest <p>(bb) no symptoms of diseases caused by Apple proliferation mycoplasma have been observed on plants at the place of production, or on susceptible plants in its immediate vicinity, since the beginning of the last three complete cycles of vegetation</p> <p>Without prejudice to the provisions applicable to the plants, listed in Schedule 3A(9), (18) and Schedule 4A1(15) (19.2), official statement that:</p> <ul style="list-style-type: none"> (a) the plants, other than those raised from seed, have been: <ul style="list-style-type: none"> — either officially certified under a certification scheme requiring them to be derived in direct line from material which has been maintained under appropriate conditions and subjected to official testing for, at least, Plum pox virus using appropriate indicators or equivalent methods and has been found free, in these tests, from that plant pest, or — derived in direct line from material which is maintained under appropriate conditions and has been subjected, within the last three complete cycles of vegetation, at least once, to official testing for at least Plum pox virus using

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

<i>Plants, plant products and other objects</i>	<i>Special requirements</i>
<p><i>Prunus nigra</i> Ait. <i>Prunus persica</i>(L.) Batsch <i>Prunus salicina</i> L. <i>Prunus sibirica</i> L. <i>Prunus simonii</i> Carr. <i>Prunus spinosa</i> L. <i>Prunus tomentosa</i> Thunb. <i>Prunus triloba</i> Lindl. other species of <i>Prunus</i> L. susceptible to plum pox virus</p>	<p>appropriate indicators or equivalent methods and has been found free, in these tests, from that plant pest</p> <p>(b) no symptoms of disease caused by Plum pox virus have been observed on plants at the place of production or on susceptible plants in its immediate vicinity, since the beginning of the last three complete cycles of vegetation</p> <p>(c) plants at the place of production which have shown symptoms of disease caused by other viruses or virus-like pathogens, have been rogued out</p>
<p>23.2 Plants of <i>Prunus</i> L., intended for planting,</p> <p>(a) originating in countries where the relevant plant pests are known to occur on <i>Prunus</i> L.</p> <p>(b) other than seeds, originating in countries where the relevant plant pests are known to occur</p> <p>(c) other than seeds, originating in non-European countries where the relevant plant pests are known to occur</p> <p>The relevant plant pests are:</p> <ul style="list-style-type: none"> — for the case under (a): Tomato ringspot virus — for the case under (b): Cherry rasp leaf virus (American) Peach mosaic virus (American) Peach phony rickettsia Peach rosette mycoplasma Peach yellows mycoplasma Plum line pattern virus (American) Peach X-disease mycoplasma — for the case under (c): Little cherry pathogen 	<p>Without prejudice to the provisions applicable to the plants, where appropriate, listed in Schedule 3A(9), (18) or Schedule 4A1(15), (19.2), (23.1), official statement that:</p> <p>(a) the plants have been:</p> <ul style="list-style-type: none"> — either officially certified under a certification scheme requiring them to be derived in direct line from material which has been maintained under appropriate conditions and subjected to official testing for at least the relevant plant pests using appropriate indicators or equivalent methods and has been found free, in these tests, from those plant pests, or — derived in direct line from material which is maintained under appropriate conditions and has been subjected, within the last three complete cycles of vegetation, at least once, to official testing for at least the relevant plant pests using appropriate indicators or equivalent methods and has been found free, in these tests, from those plant pests <p>(b) no symptoms of diseases caused by the relevant plant pests have been observed on plants at the place of production or on susceptible plants in its immediate vicinity, since the beginning of the last three complete cycles of vegetation</p>

families Caryophyllaceae (except <i>Dianthus</i> L.), Compositae (except <i>Dendranthema</i> (DC) Des Moul.), Cruciferae, Leguminosae and Rosaceae (except <i>Fragaria</i> L.), originating in third countries other than European and Mediterranean countries	listed in Schedule 4A1(32.1), (32.2), (32.3), (33), (34), (36), official statement that the plants: <ul style="list-style-type: none"> — have been grown in nurseries, and — are free from plant debris, flowers and fruits, and — have been inspected at appropriate times and prior to export and <ul style="list-style-type: none"> — found free from symptoms of harmful bacteria, viruses and virus-like organisms, and — either found free from signs or symptoms of harmful nematodes, insects, mites and fungi, or have been subjected to appropriate treatment to eliminate such pests
45 Plants of <i>Euphorbia pulcherrima</i> Willd. intended for planting, other than seeds, originating in countries where <i>Bemisia tabaci</i> Genn. (non-European populations) is known to occur	Official statement that: <ul style="list-style-type: none"> — the plants originate in areas known to be free from <i>Bemisia tabaci</i> Genn., or — no signs of <i>Bemisia tabaci</i> Genn. have been observed on plants at the place of production, on official inspections carried out at least monthly during the three months prior to export
46 Plants intended for planting other than seeds, bulbs, tubers, corms, rhizomes, originating in countries where the relevant plant pests are known to occur	Without prejudice to the requirements applicable to plants listed in Schedule 3A(13), and Schedule 4A1(25.5), (25.6), (32.1), (32.2), (32.3), (35.1), (35.2), (36), (44), (45) where appropriate,
The relevant plant pests are: <ul style="list-style-type: none"> — Bean golden mosaic virus — Cowpea mild mottle virus — Lettuce infectious yellows virus — Pepper mild tigré virus — Squash leaf curl virus — other viruses transmitted by <i>Bemisia tabaci</i> Genn. 	
(a) Where <i>Bemisia tabaci</i> Genn. (non-European populations) or other vectors of the relevant plant pests are not known to occur	official statement that no symptoms of the relevant plant pests have been observed on the plants during their complete cycle of vegetation
(b) Where <i>Bemisia tabaci</i> Genn. (non-European populations) or other vectors of the relevant plant pests are known to occur	official statement that no symptoms of the relevant plant pests have been observed on the plants during an adequate period, and <ul style="list-style-type: none"> (a) the plants originate in areas known to be free from <i>Bemisia tabaci</i> Genn. and other vectors of the relevant plant pests, or (b) the place of production has been found free from <i>Bemisia tabaci</i> Genn. and other vectors of the relevant plant pests

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

<i>Plants, plant products and other objects</i>	<i>Special requirements</i>
	<p>on official inspections carried out at appropriate times, or</p> <p>(c) the plants have been subjected to an appropriate treatment aimed at eradicating <i>Bemisia tabaci</i> Genn.</p>
<p>47 Seeds of <i>Helianthus annuus</i> L.</p>	<p>Official statement that:</p> <p>(a) the seeds originate in areas known to be free from <i>Plasmopara halstedii</i>(Farlow) Berl. et de Toni, or</p> <p>(b) the seeds, other than those seeds that have been produced on varieties resistant to all races of <i>Plasmopara halstedii</i>(Farlow) Berl. et de Toni present in the area of production, have been subjected to an appropriate treatment against <i>Plasmopara halstedii</i>(Farlow) Berl. et de Toni</p>
<p>48 Seeds of <i>Lycopersicon lycopersicum</i>(L.) Karsten ex Farw.</p>	<p>Official statement that the seeds have been obtained by means of an appropriate acid extraction method or an equivalent method and</p> <p>(a) either the seeds originate in areas where <i>Clavibacter michiganensis</i> ssp.<i>michiganensis</i>(Smith) Davis et al.,<i>Xanthomonas campestris</i> pv. and <i>vesicatoria</i>(Doidge) Dye and potato spindle tuber viroid are not known to occur, or</p> <p>(b) no symptoms of diseases caused by those plant pests have been observed on the plants at the place of production during their complete cycle of vegetation, or</p> <p>(c) the seeds have been subjected to official testing for at least those plant pests, on a representative sample and using appropriate methods, and have been found in these tests, free from those plant pests</p>
<p>49.1 Seeds of <i>Medicago sativa</i> L.</p>	<p>Official statement that:</p> <p>(a) no symptoms of <i>Ditylenchus dipsaci</i>(Kühn) Filipjev have been observed at the place of production since the beginning of the last complete cycle of vegetation and that no <i>Ditylenchus dipsaci</i>(Kühn) Filipjev has been revealed by laboratory tests on a representative sample, or</p> <p>(b) fumigation has taken place prior to export</p>
<p>49.2 Seeds of <i>Medicago sativa</i> L., originating in countries where <i>Clavibacter michiganensis</i> ssp.<i>insidiosus</i> Davis et al. is known to occur</p>	<p>Without prejudice to the requirements applicable to the plants listed in Schedule 4A1(49.1), official statement that:</p>

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

<i>Plants, plant products and other objects</i>	<i>Special requirements</i>
	<p>(a) <i>Clavibacter michiganensis</i> ssp.<i>insidiosus</i> Davis et al. has not been known to occur on the farm or in the immediate vicinity since the beginning of the past 10 years</p> <p>(b) either</p> <ul style="list-style-type: none">— the crop belongs to a variety recognised as being highly resistant to <i>Clavibacter michiganensis</i> ssp.<i>insidiosus</i> Davis et al., or— it had not yet started its fourth complete cycle of vegetation from sowing when the seed was harvested, and there was not more than one preceding seed harvest from the crop, or— the content of inert matter which has been determined in accordance with the rules applicable for the certification of seed marketed in the Community, does not exceed 0.1% by weight <p>(c) no symptoms of <i>Clavibacter michiganensis</i> ssp.<i>insidiosus</i> Davis et al. have been observed at the place of production or on any <i>Medicago sativa</i> L. crop adjacent to it, during the last complete cycle of vegetation or, where appropriate, the last two cycles of vegetation</p> <p>(d) the crop has been grown on land on which no previous <i>medicago sativa</i> L. crop has been present during the last three years prior to sowing</p>
50 Seeds of <i>Oryza sativa</i> L.	<p>Official statement that:</p> <p>(a) the seeds have been officially tested by appropriate nematological tests and have been found free from <i>Aphelenchoides besseyi</i> Christie,</p> <p>or</p> <p>(b) the seeds have been subjected to an appropriate hot water treatment or other appropriate treatment against <i>Aphelenchoides besseyi</i> Christie</p>
51 Seeds of <i>Phaseolus</i> L.	<p>Official statement that:</p> <p>(a) the seeds originate in a country known to be free from <i>Xanthomonas campestris</i> pv.<i>phaseoli</i>(Smith) Dye,</p> <p>or</p>

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

<i>Plants, plant products and other objects</i>	<i>Special requirements</i>
52 Seeds of <i>Zea mais</i> L.	<p>(b) a representative sample of the seeds has been tested and found free from <i>Xanthomonas campestris</i> pv.<i>phaseoli</i>(Smith) Dye on these tests</p> <p>Official statement that:</p> <p>(a) the seeds originate in areas known to be free from <i>Erwinia stewartii</i>(Smith) Dye,</p> <p>or</p> <p>(b) a representative sample of the seeds has been tested and found free from <i>Erwinia stewartii</i>(Smith) Dye in this test.</p>

Section 2.

Plants, plant products, and other objects originating in the Community.

<i>Plants, plant products and other objects</i>	<i>Special requirements</i>
1 Wood of <i>Castanea</i> Mill.	<p>(a) Official statement that the wood originates in areas known to be free from <i>Cryphonectria parasitica</i>(Murrill) Barr,</p> <p>or</p> <p>(b) the wood shall be stripped of its bark</p>
2 Wood of <i>Platanus</i> L., including wood which has not kept its natural round surface	<p>(a) Official statement that the wood originates in areas known to be free from <i>Ceratocystis fimbriata</i> f.sp.<i>platani</i> Walter,</p> <p>or</p> <p>(b) there shall be evidence by a mark 'Kiln-dried,' 'K.D.' or another internationally recognised mark, put on the wood or on its packaging in accordance with current commercial usage, that it has undergone kiln-drying to below 20% moisture content, expressed as a percentage of dry matter, at time of manufacture, achieved through an appropriate time/temperature schedule</p>
3 Isolated bark of <i>Castanea</i> Mill.	<p>Official statement:</p> <p>(a) that the bark originates in areas known to be free from <i>Cryphonectria parasitica</i>(Murrill) Barr, or</p> <p>(b) that the consignment has been subjected to fumigation or other appropriate treatment against <i>Cryphonectria parasitica</i>(Murrill) Barr</p>
4 Plants of <i>Pinus</i> L., intended for planting, other than seeds	<p>Official Statement that no symptoms of <i>Scirrhia pini</i> Funk et Parker have been observed at the place of production or in its immediate vicinity</p>

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

<i>Plants, plant products and other objects</i>	<i>Special requirements</i>
	since the beginning of the last complete cycle of vegetation
5 Plants of <i>Abies</i> Mill., <i>Larix</i> Mill., <i>Picea</i> A. Dietr., <i>Pinus</i> L., <i>Pseudotsuga</i> Carr., and <i>Tsuga</i> Carr., intended for planting, other than seeds	Without prejudice to the requirements applicable to the plants listed in Schedule 4A2(4), where appropriate, official statement that no symptoms of <i>Melampsora medusae</i> Thümen have been observed at the place of production or in its immediate vicinity since the beginning of the last complete cycle of vegetation
6 Plants of <i>Populus</i> L., intended for planting other than seeds	Official statement that no symptoms of <i>Melampsora medusae</i> Thümen have been observed at the place of production or in its immediate vicinity since the beginning of the last complete cycle of vegetation
7 Plants of <i>Castanea</i> Mill. and <i>Quercus</i> L., intended for planting, other than seeds	Official statement that: <ul style="list-style-type: none"> (a) the plants originate in areas known to be free from <i>Cryphonectria parasitica</i>(Murrill) Barr, or (b) no symptoms of <i>Cryphonectria parasitica</i>(Murrill) Barr have been observed at the place of production or in its immediate vicinity since the beginning of the last complete cycle of vegetation
8 Plants of <i>Platanus</i> L. intended for planting, other than seeds	Official statement that: <ul style="list-style-type: none"> (a) the plants originate in an area known to be free from <i>Ceratocystis fimbriata</i> f.sp.<i>platani</i> Walter, or (b) no symptoms of <i>Ceratocystis fimbriata</i> f.sp.<i>platani</i> Walter have been observed at the place of production or in its immediate vicinity since the beginning of the last complete cycle of vegetation.
9 Plants of <i>Chaenomeles</i> Lindl., <i>Cotoneaster</i> Ehrh., <i>Crataegus</i> L., <i>Cydonia</i> Mill., <i>Eriobotrya</i> Lindl., <i>Malus</i> Mill., <i>Mespilus</i> L., <i>Pyracantha</i> Roem., <i>Pyrus</i> L., <i>Sorbus</i> L., other than <i>Sorbus intermedia</i> (Ehrh.) Pers. and <i>Stranvaesia</i> Lindl., intended for planting, other than seeds	Official statement: <ul style="list-style-type: none"> (a) that the plants originate in zones recognised as being free from <i>Erwinia amylovora</i>(Burr.) Winsl. et al. <p style="text-align: center;">or</p> <ul style="list-style-type: none"> (b) that the plants in the field of production and in its immediate vicinity, which have shown symptoms of <i>Erwinia amylovora</i>(Burr.) Winsl. et al., have been rogued out
10 Plants of <i>Citrus</i> L., <i>Fortunella</i> Swingle, <i>Poncirus</i> Raf., and their hybrids, other than fruit and seeds	Official statement that: <ul style="list-style-type: none"> (a) the plants originate in areas known to be free from <i>Spiroplasma citri</i> Saglio et al., <i>Phoma tracheiphila</i> l(Petri) Kanchaveli and Gikashvili, Citrus vein

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

<i>Plants, plant products and other objects</i>	<i>Special requirements</i>
	<p>enation woody gall and Citrus tristeza virus (European strains), or</p> <p>(b) the plants derive from a certification scheme requiring them to be derived in direct line from material which has been maintained under appropriate conditions and has been subjected to official individual testing for, at least, Citrus tristeza virus (European strains) and Citrus vein enation woody gall, using appropriate indicators or equivalent methods, and have been growing permanently in an insect proof glasshouse or in an isolated cage in which no symptoms of <i>Spiroplasma citri</i> Saglio et al., <i>Phoma tracheiphila</i>, Citrus tristeza virus (European strains) and Citrus vein enation woody gall have been observed, or</p> <p>(c) the plants:</p> <ul style="list-style-type: none"> — have been derived from a certification scheme requiring them to be derived in direct line from material which has been maintained under appropriate conditions and has been subjected to official individual testing for, at least, Citrus vein enation woody gall and Citrus tristeza virus (European strains), using appropriate indicators or equivalent methods, and has been found, in these tests, free from Citrus tristeza virus (European strains), and certified free from, at least, Citrus tristeza virus (European strains) in official individual tests carried out according to the methods mentioned in this indent; — and have been inspected and no symptoms of <i>Spiroplasma citri</i> Saglio et al., <i>Phoma tracheiphila</i>(Petri) Kanchaveli and Gikashvili and of Citrus vein enation woody gall and Citrus tristeza virus have been observed since the beginning of the last complete cycle of vegetation
<p>11 Plants of Araceae, Marantaceae, Musaceae, <i>Persea</i> ssp. and Strelitziaceae, rooted or with growing medium attached or associated</p>	<p>Official statement that:</p> <p>(a) no contamination by <i>Radopholus similis</i>(Cobb) Thorne has been observed at the place of production, since the</p>

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

<i>Plants, plant products and other objects</i>	<i>Special requirements</i>
12 Plants of <i>Fragaria</i> L., <i>Prunus</i> L., <i>Rubus</i> L., intended for planting, other than seeds	<p>beginning of the last complete cycle of vegetation, or</p> <p>(b) soil and roots from suspected plants have been subjected since the beginning of the last complete cycle of vegetation to official nematological testing for at least <i>Radopholus similis</i>(Cobb) Thorne and have been found, in these tests, free from that plant pest</p> <p>Official statement that:</p> <p>(a) The plants originate in areas known to be free from the relevant plant pests, or</p> <p>(b) no symptoms of diseases caused by the relevant plant pests have been observed on plants at the place of production since the beginning of the last complete cycle of vegetation</p> <p>The relevant plant pests are:</p> <ul style="list-style-type: none"> — on <i>Fragaria</i> L.: <ul style="list-style-type: none"> <i>Phytophthora fragariae</i> Hickman var.<i>fragariae</i> Arabis mosaic virus Raspberry ringspot virus Strawberry crinkle virus Strawberry latent ringspot virus Strawberry mild yellow edge virus Tomato black ring virus <i>Xanthomonas fragariae</i> Kennedy et King — on <i>Prunus</i> L.: <ul style="list-style-type: none"> Apricot chlorotic leafroll mycoplasma <i>Xanthomonas campestris</i> pv.<i>pruni</i>(Smith) Dye — on <i>Prunus persica</i>(L.) Batsch: <ul style="list-style-type: none"> <i>Pseudomonas syringae</i> pv. <i>persicae</i>(Prunier et al.) Young et al. — on <i>Rubus</i> L.: <ul style="list-style-type: none"> Arabis mosaic virus Raspberry ringspot virus Strawberry latent ringspot virus Tomato black ring virus
13 Plants of <i>Cydonia</i> Mill., and <i>Pyrus</i> L. intended for planting, other than seeds	<p>Without prejudice to the requirements applicable to plants listed in Schedule 4A2(9), official statement that:</p> <p>(a) the plants originate in areas known to be free from Pear decline mycoplasma, or</p> <p>(b) the plants at the place of production and in its immediate vicinity, which have shown symptoms giving rise to</p>

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

<i>Plants, plant products and other objects</i>	<i>Special requirements</i>
	the suspicion of contamination by Pear decline mycoplasma, have been rogued out at that place within the last three complete cycles of vegetation
14 Plants of <i>Fragaria</i> L., intended for planting, other than seeds	<p>Without prejudice to the requirements applicable to the plants, listed in Schedule 4A2(12), official statement that:</p> <ul style="list-style-type: none"> (a) the plants originate in areas known to be free from <i>Aphelenchoides besseyi</i> Christie, or (b) no symptoms of <i>Aphelenchoides besseyi</i> Christie have been observed on plants at the place of production since the beginning of the last complete cycle of vegetation, or (c) in the case of plants in tissue culture, the plants have been derived from plants complying with section (b) of this item or have been officially tested by appropriate nematological methods and have been found free from <i>Aphelenchoides besseyi</i> Christie
15 Plants of <i>Malus</i> Mill., intended for planting, other than seeds	<p>Without prejudice to the requirements applicable to the plants listed in Schedule 4A2(9), official statement that:</p> <ul style="list-style-type: none"> (a) the plants originate in areas known to be free from Apple proliferation mycoplasma or, (b) (aa) the plants, other than those raised from seed, have been: <ul style="list-style-type: none"> — either officially certified under a certification scheme requiring them to be derived in direct line from material which has been maintained under appropriate conditions and subjected to official testing for at least Apple proliferation mycoplasma using appropriate indicators or equivalent methods and has been found, in these tests, free from that plant pest, or — derived in direct line from material which is maintained under appropriate conditions and has been subjected, within the last six complete cycles of vegetation, at least once, to official testing for, at least, Apple proliferation

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

Plants, plant products and other objects	Special requirements
	<p>mycoplasma using appropriate indicators or equivalent methods and has been found, in these tests, free from that plant pest</p> <p>(bb) no symptoms of diseases caused by Apple proliferation mycoplasma have been observed on plants at the place of production, or on susceptible plants in its immediate vicinity, since the beginning of the last three complete cycles of vegetation</p>
<p>16 Plants of the following species of <i>Prunus</i> L., intended for planting other than seeds:</p> <p><i>Prunus amygdalus</i> Batsch</p> <p><i>Prunus armeniaca</i> L.</p> <p><i>Prunus blireiana</i> Andre</p> <p><i>Prunus brigantina</i> Vill.</p> <p><i>Prunus cerasifera</i> Ehrh.</p> <p><i>Prunus cistena</i> Hansen</p> <p><i>Prunus curdica</i> Fenzl and Fritsch.</p> <p><i>Prunus domestica</i> ssp.<i>domestica</i> L.</p> <p><i>Prunus domestica</i> ssp.<i>insititia</i>(L.)
